# Hint:

- There is a difference between "delegate access" to PCVC and "scheduling access with ability to do send invite on behalf of"
  - Delegate access is more work – takes longer and the only difference is the delegate is added to the system in Ncompass
  - PCVC scheduling access gives the person the ability to create OTNinvite's on behalf of the PCVC owner – faster processing time and less work, user is not listed in Ncompass as system contact
